

**THE 1992-97 PANEL STUDY OF
RESIDENTIAL WATER CONSERVATION IMPACT:
Persistence of Conservation Performances of
Demand-Side Management Programs**

Final Report

**Project Sponsor:
Artesian Water Company, Inc.**

**Young-Doo Wang
John Byrne
Jae-Shuck Song
Yingxia Chen**

**Center for Energy and Environmental Policy

SECTION

EXECUTIVE

SUMMARY 1

SECTION I

INTRODUCTION 9

SECTION II

ARTESIAN'S RESIDENTIAL DEMAND-SIDE MANAGEMENT

PROGRAMS 11

 II-1 General Characteristics of Artesian Residential Customers 11

 II-2 Artesian's Water DSM Programs..... 13

 II-2-1 Information Campaigns..... 13

 II-2-2 Delivery of Conservation Devices..... 14

 II-2-3 Conservation Rates..... 15

SECTION III

ARTESIAN'S WATER CONSERVATION IMPACT STUDY: OBJECTIVES

AND METHODOLOGY..... 17

 III-1 Objectives 17

 III-2 Random Sampling and Original Sample Size 18

 III-3 Mixed Survey Modes: Telephone Interview and Mail Survey 21

 III-4 Sample Size of 662 and Its Accuracy Level 24

 III-5 Water DSM-Related research 25

SECTION IV

CUSTOMER PROFILE OF SAMPLE HOUSEHOLDS BY

CONSUMPTION GROUPS 27

 IV-1 Sample Household Characteristics 28

 IV-2 Indoor Water Uses 31

 IV-3 Outdoor Water Uses 37

 IV-4 Water Conservation: Attitudes and Measures 46

 IV-5 Water Consumption and Its Pricing 50

 IV-6 Water Conservation Policy Options 55

SECTION V

CURRENT SAMPLE AND ITS REPRESENTATIVENESS 61

SECTION VI

WATER CONSUMPTION TRENDS OF ARTESIAN'S

RESIDENTIAL CUSTOMERS: A PANEL STUDY	65
VI-1 Information Campaigns	68
VI-2 Delivery of Conservation Devices	71
VI-3 Conservation-Oriented Rates	74
SECTION VII	
CHARACTERISTICS OF ARTESIAN'S RESIDENTIAL PEAK WATER CONSUMPTION	81
VII-1 Household Characteristics	84
VII-2 Housing Characteristics	87
VII-3 Major Water-Consuming Appliances or Activities	91
VII-4 Conservation Information and Devices	94
SECTION VIII	
EVALUATION OF ARTESIAN'S RESIDENTIAL DSM MEASURES: PRELIMINARY TESTS	97
VIII-1 Preliminary Tests: Correlation and T-Test	98
VIII-2 Correlation Analysis	100
VIII-3 T-Tests	103
SECTION IX	
EVALUATION OF ARTESIAN'S RESIDENTIAL DSM MEASURES: CROSS-SECTIONAL DEMAND ANALYSES	111
IX-1 A policy Framework of Residential Water Conservation	111
IX-2 Estimation Results: Cross-Sectional Models	114
SECTION X	
EVALUATION OF ARTESIAN'S RESIDENTIAL DSM MEASURES: WATER DEMAND ANALYSIS THROUGH A PANEL STUDY	117
SECTION XI	
POLICY IMPLICATIONS AND SUGGESTIONS	125
XI-1 Enhancement of Information Quality	125
XI-2 Delivery of Conservation Devices	127
XI-3 Adoption of Conservation-Oriented Pricing	128
REFERENCES	131
APPENDIX A	139
APPENDIX B	149

LIST OF FIGURES

Figure

Figure 1.	Residential Summer Water Consumption per Capita by Consumption Group	19
Figure 2.	Use Frequency of Dishwashers during the Summer (per Month)	31
Figure 3.	Use Frequency of Dishwashers by Consumption Group (per Month)	33
Figure 4.	Use Frequency of Clothes Washers during the Summer (per Month)	34
Figure 5.	Use Frequency Clothes Washers by Consumption Group (per Month)	35
Figure 6.	Household Lawn/Garden Watering Frequency during the Summer (per Month)	37
Figure 7.	Frequency of Lawn/Garden Watering by Consumption Group (per Month)	38
Figure 8.	Length of Lawn/Garden Watering Time during the Summer Month (Minutes)	39
Figure 9.	Average Duration of Watering Lawn/Garden by Consumption Group (Minutes)	40
Figure 10.	Frequency of Car Washing at Home during the Summer	43
Figure 11.	Frequency of Summer Car Washing by Consumption Group	43
Figure 12.	Swimming Pool Ownership by Consumption Group (Percent)	44
Figure 13.	Household Opinion: Would you favor a policy to have higher prices for large users?	57
Figure 14.	Consumption Group Attitudes toward Higher Summer Water Prices for large Users	58

LIST OF TABLES

Table

Table 1. Comparison of Bill Amounts between Old and New Rates	16
Table 2. Mean and Standard Deviation of Water Consumption by Target Subgroups (3rd Quarter of 1991)	18
Table 3. Comparison between Telephone and Mail Survey Groups: t-Test	23
Table 4. Sample Accuracy Level by Subgroup (1992)	24
Table 5. Including yourself, how many persons reside in your house?	28
Table 6. Average Household Size by Consumption Group	28
Table 7. What is the age of the oldest in your household?	29
Table 8. Average Age of Household Head by Consumption Group	29
Table 9. Which category best describes the total annual income of your household?	30
Table 10. Average Household Income by Consumption Group	30
Table 11. How often would you say that the dishwasher is used per month?	31
Table 12. Ownership of Dishwasher by Consumption Group	32
Table 13. Use Frequency of Dishwasher By Consumption Group Per Month	32
Table 14. How often would you say that the clothes washer is used per month?	33
Table 15. Use Frequency of Clothes Washer By Consumption Group (Per Month)	34
Table 16. How often would you say that you use your jacuzzi, hot tub and other per month?	35
Table 17. How frequently did you water your lawn and/or garden(s) during last summer?	37
Table 18. Frequency of Watering Lawn/Garden(s) by Consumption Group (Per Month)	38
Table 19. How long do you water lawn and/or garden(s) on average during last summer?	39

Table 20.	Average Duration of Watering Lawn/Garden(s) by Consumption Group (Minutes)	40
Table 21.	How many cars did you or someone in your household wash at home during last summer?	41
Table 22.	Average Number of Cars Washed at Home by Consumption Group	41
Table 23.	How frequently did you or someone in your household wash car(s) at home? (During the summer of 1992)	42
Table 24.	Frequency of Washing Cars at Home by Consumption Group (During the summer of 1992)	43
Table 25.	Swimming Pool Ownership By Consumption Group (Percent)	44
Table 26.	Awareness of Artesian's Conservation Efforts by Consumption Group (Percent)	46
Table 27.	How did you get the information about Artesian's water conservation efforts?	46
Table 28.	Have you or Artesian installed any of the following water-conserving fixtures?	47
Table 29.	Water-Conservation Fixtures Installed by Consumption Group	48
Table 30.	Could you describe any water conservation measures you have taken outdoors?	49
Table 31.	Would you say that water prices are higher during periods of high use?	51
Table 32.	Awareness of Water Prices Perceived by Consumption Group (Are water prices higher during periods of high use?)	52
Table 33.	During which season of the year would you say residential water prices are higher?	52
Table 34.	How do you think Artesian's water prices compare with other New Castle utilities?	53
Table 35.	How would you assess New Castle County's current water supply situation? (Please check all that apply)	53
Table 36.	Water Supply Situation Perceived by Consumption Group (Adequate supply but excessive demand, Percent)	54
Table 37.	Awareness of Sprinkling Regulation by Consumption Group (Percent)	55

Table 38.	Do you agree that water prices should be increased to encourage greater water conservation?	56
Table 39.	Would you favor a policy option to have higher summer prices for large users?	56
Table 40.	Water Prices Perception (Higher Summer Prices) by Consumption Group	57
Table 41.	Are you in favor of higher prices throughout the year for large water users?	58
Table 42.	Water Prices Perception By Consumption Group (Are you in favor of higher prices throughout the year for large users?)	59
Table 43.	Would you favor a policy option to have conservation devices for a fee?	59
Table 44.	How would you rate the following sources of information on water conservation?	60
Table 45.	Comparison of Two Samples: T-Test	62
Table 46.	Comparison of Two Samples by Consumption Group: T-Test (Based on the 1992 Data)	63
Table 47.	Trends of Water Consumption by Consumption Group: Based on Information Level	68
Table 48.	Trends of Water Consumption by Consumption Group: Based on Conservation Devices from Artesian	71
Table 49.	Trends of Water Consumption by Consumption Group: Conservation-Oriented Rates	74
Table 50.	Trends of Water Consumption: 10% to 50% Increases in Average Prices	76
Table 51.	Trends of Water Consumption: More Than 10% to 50% Increases in Average Prices	78
Table 52.	Peak Month Water Consumption by Income Group	84
Table 53.	Peak Month Water Consumption by Age Group	85
Table 54.	Peak Month Water Consumption by Household with Children	85
Table 55.	Peak Month Water Consumption by Household with Teenagers	86
Table 56.	Peak Month Water Consumption by Household Size	86

Table 57.	Peak Month Water Consumption by Housing Value	87

Table 61.	Peak Month Water Consumption by Number of Toilets	89
Table 62.	Peak Month Water Consumption by Number of Bathtubs/Showers	90
Table 63.	Peak Month Water Consumption by Use Frequency of Dishwashers	91
Table 64	Peak Month Water Consumption by Use Frequency of Clothes Washers	92
Table 65	Peak Month Water Consumption by Watering Frequency of Lawn/Garden	92
Table 66.	Peak Month Water Consumption by Frequency of Carwash	93
Table 67.	Peak Month Water Consumption by Ownership of Pool	93
Table 68.	Peak Month Water Consumption by Awareness of Conservation Information	94
Table 69.	Peak Month Water Consumption by Awareness of Sprinkling Regulations	94
Table 70.	Peak Month Water Consumption by Installation of Conservation Fixtures	95
Table 71.	Peak Month Water Consumption by Conservation Devices from Artesian	96
Table 72.	Simple Correlation between Water Consumption and Independent Variables (3rd Quarter)	100
Table 73.	Simple Correlation Between Growth Rate of Water Consumption and Independent Variables	103
Table 74.	Comparison of Water Consumption between Two Groups (1992-94): t-Test	104
Table 75.	Comparison of Water Consumption between Two Groups (1995-97): t-Test	105

Table 76.	Comparison of Water Consumption Growth between Two Groups (1992-94): t-Test	108
Table 77.	Comparison of Water Consumption growth between Two Groups (1995-97): t-Test	109
Table 78.	Results of Linear Models for Water Demand in 1992 through 1997	115
Table 79.	Results of Log Models for Water Demand in 1992 through 1997	116
Table 80.	Results of Regression Models for Water Demand: Based on Nominal Prices (1992-97)	119
Table 81.	Results of Regression Models for Water Demand: Based on Real Prices (1992-97)	120
Table 82.	Estimated Price Elasticities for Residential Water Demand: Studies conducted between 1985 and 1998	121
Table 83.	Results of Modified Models for Water Demand: Based on Nominal Prices (1994-97)	123
Table 84.	Results of Modified Models for Water Demand: Based on Real Prices (1994-97)	124

ACKNOWLEDGMENTS

The authors express their appreciation to Mr. David Spacht, Vice President, Chief Financial Officer and Treasurer, Artesian Water Company, Inc., who initiated our water conservation impact study and gave insightful comments throughout this project; Ms. Dian C. Taylor, President, Artesian Water Company, Inc. who sponsored this project and allowed monthly readings of water consumption for our sample customers during the summer months of 1992 through 1997; and Mr. Stewart Lovell, Manager, Water Supply Section of the State Department of Natural Resources and Environmental Control (DNREC) and Mr. Leigh Glover, Research Associate, Center for Energy and Environmental Policy for their reviews and comments of drafts of this report.

The authors also wish to thank Mr. Albert Marvel, Data Processing Manager, Artesian Water Company, Inc. who was instrumental in securing water usage and billing data for this project.

The authors bear sole responsibility for the contents of the report.
